Commonwealth Oil

Safety Data Sheet

a Wallover Company

Section 1: Identification	
---------------------------	--

Product Identifier/Name	EDM 185	
Product code	• 10236	
Relevant identified uses of th	ne substance or mixture and uses advised against	
Recommended use	Dielectric machining fluid	
Restrictions on use	 For intended industrial use only 	
Details of the supplier of the safety data sheet		
Manufacturer	Commonwealth Oil Company	
	2080 Ferriss Rd N.,P.O. Box 370	
	Harrow, Ontario, NOR 1G0	
	Canada	
	www.commonwealthoil.com	
Telephone (General)	• (519) 738-3503	
Emergency telephone number	• CANUTEC (613) 996-6666 Collect 24 hr	
Section 2: Hazard Identification		

Classification of the substance or mixture

In accordance with 29 CFR 1910.1200 OSHA HCS 2012 and the Canadian Hazardous Products Regulations WHIMIS 2015 and Mexico Standard NOM-018-STPS-2015.

		Flammable liquid Category 4
		Aspiration hazard Category 1
Label elements		
Signal word		DANGER
Hazard symbol		
Hazard statements	H227	Combustible liquid
	H304	May be fatal if swallowed or enters airways
Precautionary statement	S	
Prevention	P210	 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources.
		No Smoking.
	P280.3	 Wear protective gloves and eye/face protection
Response	P301+P310	 IF SWALLOWED: Immediately call a POISON CENTER or physician
	P331	Do NOT induce vomiting
	P370+P378	 In case of fire: Use water fog, foam, dry chemical or carbon dioxide (CO2) to extinguish
Storage	P403	 Store in a well ventilated place. Keep cool
Disposal	P501	 Dispose of contents and container in accordance with local and
		national regulations
Hazards not otherwise classified		 Material can accumulate static charges which may cause an ignition.
		Material can release vapors that readily form flammable mixtures. Vapor
		accumulation could flash or explode if ignited.

Section 3: Composition/Information on Ingredients

Substances

Mixtures

Mixture

Hazardous Components

Chemical Name	%(Wt.)	CAS #
Distillates (petroleum), hydrotreated light	100	64742-47-8
(or Petroleum hydrocarbon with viscosity less than 20.5 cSt @ 40°C)		

Section 4: First-Aid Measures

Description of first aid measure	25		
Inhalation	 Move victim to fresh air if adverse effects are observed. 		
	 For those providing assistance, avoid exposure to yourself or others. 		
	 Use adequate respiratory protection. 		
	 If respiratory irritation, dizziness, nausea, or unconsciousness occurs, seek 		
	immediate medical assistance.		
	 If breathing has stopped, assist ventilation with a mechanical device or use 		
	mouth to mouth resuscitation.		
Skin	 IF ON SKIN: Wash skin with soap and water. Remove contaminated clothing 		
	and wash before reuse. If skin irritation occurs: Get medical advice/attention.		
Еуе	 IF IN EYES: Rinse cautiously with water for several minutes. Remove 		
	contact lenses, if present and easy to do. Continue rinsing. If eye irritation		
	persists: Get medical advice/attention.		
Ingestion	 Do NOT induce vomiting. Seek medical attention. 		
Most important symptoms and effects			
Acute	 May cause skin dryness and irritation. 		
Delayed	 Prolonged/repeated exposure may cause skin irritation in susceptible individuals. 		
Indication of any immediate medical attention and special treatment needed			
Note to Physician	 All treatments should be based on observed signs and symptoms of 		
	distress in the patient. Consideration should be given to the possibility		
	that overexposure to materials other than this product may have occurred.		

Section 5: Fire-Fighting Measures

Extinguishing media		
Suitable Extinguishing Media	 Water fog, foam, carbon dioxide, dry chemical. 	
Unsuitable Extinguishing	 Avoid the use of water jet, as this may spread the fire. 	
Media		
Special hazards arising from the substance or mixture		
Unusual Fire and Explosion	 Combustible. Vapors are flammable and heavier than air. Vapors may travel 	
Hazards	across the ground.	
Hazardous Combustion	 Smoke, soot, fumes or vapors, oxides of carbon. 	
Products		
Special Protective Equipment	 Evacuate area. Prevent run off from fire control or dilution from entering 	
and Precautions for Firefighters	waterways.	

 Structural firefighters' protective clothing will only provide limited protection. Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Wear positive pressure self-contained breathing apparatus (SCBA). Water spray may be used to cool containers exposed to fire.

Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Notification	In event of a major spill or accidental release notify relevant authorities
	in accordance with all applicable regulations.
Personal Precautions	 Avoid contact with spilled material.
	 For emergency responders: Respiratory protection: half face or full face
	respirator with filter(s) for organic vapor or SCBA can be used.
	 Small spills: normal antistatic work clothes are usually adequate.
	Large spills: full body suit of chemical resistant, antistatic material is recommended.
Environmental precautions	 Avoid run off to waterways and sewers.
Methods and material for contai	nment and cleaning up
Containment/Clean-up	 Eliminate all ignition sources. All equipment used when handling product must be
Measures	grounded. Use non-sparking tools to collect absorbed material. Absorb or cover
	with dry earth, sand or other non-combustible materials and transfer to
	containers.
	 Recover free liquid for recycle or disposal.
	LARGE SPILLS: Dike far ahead of liquid spill for later disposal.

Section7: Handling and Storage

Precautions for safe handling			
Handling	 Material can accumulate static charges which may cause an electric spark 		
	(ignition source). Use proper bonding and/or grounding procedures.		
	 Empty container contains product residue which may exhibit hazards of product. 		
Conditions for safe storage, including any incompatibilities			
Storage	 Store in a dry, well ventilated place. Keep container tightly closed when not in use. 		
	Keep away from open flame. Storage containers should be grounded and bonded.		
Incompatible Materials	 Strong oxidizing agents. 		
General Industrial Hygiene	 Handle in accordance with good industrial hygiene and safety practice. 		
Considerations	Wash thoroughly with soap and water after handling and before eating		
	or drinking. Safety shower and eye wash should be available close to		
	work station.		
Environmental Exposure	 Follow best practice for site management and disposal of waste. 		
Controls	Avoid release to the environment.		
Section 8: Exposure Controls/Personal Protection			

Exposure Controls

PEL/TLV

Ingredient	Value type	Control parameters	
Distillates (Petroleum), hydrotreated light	TWA (Mist)	<5mg/m3	OSHA Z-1
	TWA	200 mg/m3 (vapor)	ACGIH

Engineering

Measures/Controls

 Use adequate mechanical (general) ventilation or local exhaust as needed to control concentration of airborne contaminants below applicable exposure limit values.

Pictograms

Respiratory

Eye/Face

Hands Skin/Body Not necessary under conditions of normal use. In case of insufficient ventilation, wear suitable respiratory equipment if exposure limits are exceeded.

Wear safety goggles.

E

- Wear protective gloves- neoprene, butyl or nitrile rubber with cuffs.
- Where extensive dermal exposure may be expected, either a chemical suit or chemical apron will be needed.

Section 9: Physical and Chemical Properties

Information on physical and chemical properties

Appearance	Clear liquid
Odor	Mild
Odor Threshold	Not Determined
рН	None
Melting Point/Freezing Point	Not Determined
Boiling Point Range	200 - 250°C, 392 - 482°F
Flash Point	> 82°C (180°F) Cleveland Open Cup
Evaporation Rate	0.1 (n-butyl acetate = 1)
Flammability Limits	Upper explosion limit: 5.0% volume, lower explosion limit: 0.6%
Vapor Pressure	0.023 kPa (0.17 mm Hg) at 20°C
Vapor Density (Air=1)	5.5 at 101 kPa
Specific Gravity/Relative Density	0.798 @ 16°C, 61°F
Density	6.66 lbs/gal
Solubilities	Insoluble in water
Octanol/Water Partition coefficient	Not Determined
Auto ignition temperature	251°C (484°F)
Decomposition temperature	Not Determined
Viscosity	2.2 cSt @ 40°C, 104°F
Continue 40. Chaleilithe and Dage	

Section 10: Stability and Reactivity

Reactivity	 No dangerous reaction known under conditions of normal use.
Chemical stability	 Stable under normal temperatures and pressures.
Possibility of hazardous reaction	Not determined
Conditions to avoid	 Avoid heat, sparks, open flames and other ignition sources.
Incompatible materials	 Do not mix with strong oxidants.
Hazardous decomposition	 None known under normal use.
products	

Section 11: Toxicological Information

Information on the likely routes of exposure; symptoms; and acute, delayed and chronic effects			
Inhalation	 Overexposure to mists or vapors may irritate respiratory tract. May be fatal 		
	if swallowed and enters airways.		
Aspiration Hazard	 If swallowed can be aspirated into the lungs and cause chemical 		
	pneumonia, varying degrees of pulmonary injury or death.		
Ingestion	 Ingestion of concentrate may cause gastrointestinal irritation. Do not induce 		
	vomiting. Vomiting may increase risk of product aspiration.		
Еуе	 Direct contact with concentrate may cause mild eye irritation based on 		
	component information.		
Skin corrosion/irritation	 Prolonged/repeated exposure to concentrate may cause skin irritation 		
	in some individuals.		

Numerical measures of toxicity

Acute toxicity	Not classified		
Skin corrosion/irritation	Not classified		
Serious eye damage/irritation	Not classified		
Respiratory or skin sensitization	Not classified		
Germ cell mutagenicity	Not classified		
Carcinogenicity	Not classified		
Reproductive toxicity	Not classified		
STOT-single exposure	Not classified		
STOT-repeated exposure	Not classified		
Aspiration hazard	This product is classified as an Aspiration hazard, Category 1.		

Carcinogenicity Additional Information Not listed in NTP, OSHA, or IARC monographs.

- Practical experience has not demonstrated any adverse effects with normal use dilutions of this product.
- Contains petroleum oil, which if misted in excess at exposure limits may cause respiratory irritation, coughing, and extreme overexposure may cause oil pneumonitis.

Section 12: Ecological Information

- Persistence and degradability
- Bioaccumulative potential
- Mobility in Soil
- Other adverse effects

- Not determined.
- Not determined.
- Not determined.
- Not determined.
- Oil spills are generally hazardous to the environment.

Section 13: Disposal Considerations

Waste treatment methods

Product waste

- Do not discard into any sewers, on the ground, or any body of water.
- Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

 This product, as manufactured in its present state, is not considered to be a hazardous waste according to 40CFR 261.4(b)(4). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This product should be recycled if possible, otherwise it should be disposed of in accordance with all applicable federal, state, and local regulations.

Contaminated containers or packaging

Contaminated containers should be offered for professional cleaning before reuse
Dispose of spent container in accordance with local, regional, national, and/or international regulations.

Section 14: Transport Information

UN Number

- UN Proper Shipping Name Transport Hazard Class(es)
- Packing Group
- Environmental Hazards

Special Precautions for user

Transport in Bulk

- Not regulated for transport.
- Not applicable
- Not applicable
- Not applicable
- Not determined
- Not regulated
- Land (TDG) Canada Not regulated for Land transport.
- Sea (IMDG) Not regulated for Sea Transport according to IMDG-Code
- Marine pollutant NO
- None specified

Section 15: Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture Global Chemical Inventories

USA	All components of this material are on the US TSCA Inventory or	
	are exempt.	
Other TSCA Reg.	Oil mist, mineral	
Australia	Not determined.	
Canada	All ingredients listed on DSL	
China	Not determined.	
EU	Not determined.	
Japan	Not determined.	
Korea	Not determined.	
New Zealand	Not determined.	
Switzerland	Not determined.	

Other U.S. Federal Regulations	
SARA Ext. Haz. Subst.	 This product does not contain greater than 1.0% of any chemical substance
	on the SARA Extremely Hazardous Substances list.
SARA Section 313	 This product does not contain greater than 1.0% (> 0.1% for carcinogenic
	substance) of any chemical substances listed under SARA Section 313.

SARA 311/312 Classifications	Acute Hazard	No
	Chronic Hazard	Yes
	Fire Hazard	Yes
	Reactivity Hazard	No
CERCLA Hazardous Substances	None known.	
FDA Approval	 Not Applicable. 	
State Regulations		
Cal. Prop. 65	 This product may contain chemicals known by the State of California to cause
