</tbody>
</table>

Section 4: First-Aid Measures

Description of first aid measures

Inhalation
- Move victim to fresh air if adverse effects are observed.

Skin
- IF ON SKIN: Wash skin with soap and water. Remove contaminated clothing and wash before reuse. If skin irritation occurs: Get medical advice/attention.

Eye
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.

Ingestion
- Do NOT induce vomiting. Seek medical attention.

Most important symptoms and effects

Acute
- Defatting to the skin. May cause skin dryness and irritation.

Delayed
- Prolonged/repeated exposure may cause skin irritation in susceptible individuals.

Indication of any immediate medical attention and special treatment needed

Note to Physician
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Fire-Fighting Measures

Extinguishing media

Suitable Extinguishing Media
- Regular foam, carbon dioxide, dry chemical.

Unsuitable Extinguishing Media
- Avoid the use of water jet, as this may spread the fire.

Special hazards arising from the substance or mixture

Unusual Fire and Explosion Hazards
- No unusual hazard noted. Treat as oil fire.

Hazardous Combustion Products
- Smoke, soot, fumes or vapors, oxides of carbon.

Special Protective Equipment and Precautions for Firefighters
- Structural firefighters' protective clothing will only provide limited protection. Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Wear positive pressure self-contained breathing apparatus (SCBA). Water spray may be used to cool containers exposed to fire.
Section 6: Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

Personal Precautions
- Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material.

Environmental precautions
- Avoid run off to waterways and sewers.

Methods and material for containment and cleaning up

Containment/Clean-up
- Recover free liquid for recycle or disposal. Add absorbent to spill area. LARGE SPILLS: Dike far ahead of liquid spill for later disposal.

Section 7: Handling and Storage

Precautions for safe handling

Handling
- Do not mix or store with strong oxidants.
- Empty container contains product residue which may exhibit hazards of product.

Conditions for safe storage, including any incompatibilities

Storage
- Store in a dry, well ventilated place. Keep container tightly closed when not in use. Keep away from open flame.
- Keep product from freezing. (Product will freeze at 4°C/39°F)

Incompatible Materials
- Strong oxidizing agents.

General Industrial Hygiene

Considerations
- Handle in accordance with good industrial hygiene and safety practice.
- Wash thoroughly with soap and water after handling and before eating or drinking. Safety shower and eye wash should be available close to work station.

Environmental Exposure
- Follow best practice for site management and disposal of waste.

Controls
- Avoid release to the environment.

Section 8: Exposure Controls/Personal Protection

Exposure Controls

PEL/TLV

<table>
<thead>
<tr>
<th>Ingredient</th>
<th>OSHA (PEL)</th>
<th>ACGIH (TLV)</th>
<th>Other</th>
</tr>
</thead>
<tbody>
<tr>
<td>None listed</td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

Engineering
- Use adequate mechanical (general) ventilation or local exhaust as needed to control concentration of airborne contaminants below applicable exposure limit values.

Personal Protective Equipment

Pictograms

Respiratory
- Not necessary under conditions of normal use. In case of insufficient ventilation, wear suitable respiratory equipment if exposure limits are exceeded.

Eye/Face
- Wear safety goggles.

Hands
- Wear protective gloves- neoprene, butyl or nitrile rubber with cuffs.

Skin/Body
- Where extensive dermal exposure may be expected, either a chemical suit or chemical apron will be needed.
Section 9: Physical and Chemical Properties

Information on physical and chemical properties

**Appearance**
Clear water white or pale yellow liquid

**Odor**
Mild

**Odor Threshold**
Not Determined

**pH**
None

**Melting Point/Freezing Point**
4°C (39°F)

**Boiling Point Range**
248 - 284°C, 478 - 544°F

**Flash Point**
≥ 120°C (248°F) Cleveland Open Cup

**Evaporation Rate**
No data available

**Flammability Limits**
Upper explosion limit: 4.7% volume, lower explosion limit: 0.5%

**Vapor Pressure**
< 0.1mm Hg @ 20°C (68°F)

**Vapor Density (Air=1)**
No data available

**Specific Gravity/Relative**
0.770 @ 16°C, 61°F

**Solubilities**
Insoluble in water

**Octanol/Water Partition coefficient**
Not Determined

**Auto ignition temperature**
204°C, 400°F

**Decomposition temperature**
Not Determined

**Viscosity**
3.0 cSt @ 40°C, 104°F

Section 10: Stability and Reactivity

**Reactivity**
• No dangerous reaction known under conditions of normal use.

**Chemical stability**
• Stable under normal temperatures and pressures.

**Possibility of hazardous reaction**
• Not determined

**Conditions to avoid**
• Not determined

**Incompatible materials**
• Do not mix with strong oxidants.

**Hazardous decomposition products**
• None known under normal use.

Section 11: Toxicological Information

Information on the likely routes of exposure; symptoms; and acute, delayed and chronic effects

**Inhalation**
• Overexposure to mists or vapors may irritate respiratory tract. May be fatal if swallowed and enters airways.

**Aspiration Hazard**
• If swallowed can be aspirated into the lungs and cause chemical pneumonia, varying degrees of pulmonary injury or death.

**Ingestion**
• Ingestion of concentrate may cause gastrointestinal irritation. Do not induce vomiting. Vomiting may increase risk of product aspiration.

**Eye**
• Direct contact with concentrate may cause eye irritation based on component information.

**Skin corrosion/irritation**
• Prolonged/repeated exposure to concentrate may cause skin irritation in some individuals.

</tbody>
</table>

Carcinogenicity:
- Not listed in NTP, OSHA, or IARC monographs.

Additional Information
- Practical experience has not demonstrated any adverse effects with normal use dilutions of this product.
- Contains petroleum oil, which if misted in excess at exposure limits may cause respiratory irritation, coughing, and extreme overexposure may cause oil pneumonitis.

Section 12: Ecological Information

Toxicity:
- Not determined.

Persistence and degradability:
- Not determined.

Bioaccumulative potential:
- Not determined.

Mobility in Soil:
- Not determined.

Other adverse effects:
- Oil spills are generally hazardous to the environment.

Section 13: Disposal Considerations

Waste treatment methods

Product waste:
- Do not discard into any sewers, on the ground, or any body of water.
- Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.
- This product, as manufactured in its present state, is not considered to be a hazardous waste according to 40CFR 261.4(b)(4). Under RCRA, it is the responsibility of the user of the product to determine, at the time of disposal, whether the product meets RCRA criteria for hazardous waste. This product should be recycled if possible, otherwise it should be disposed of in accordance with all applicable federal, state, and local regulations.

Contaminated containers or packaging:
- Contaminated containers should be offered for professional cleaning before reuse.
- Dispose of spent container in accordance with local, regional, national, and/or international regulations.
Section 14: Transport Information

- UN Number: Not regulated for transport.
- UN Proper Shipping Name: Not applicable
- Transport Hazard Class(es): Not applicable
- Packing Group: Not applicable
- Environmental Hazards: Not determined
- Transport in Bulk: Not regulated
- Special Precautions for user: None specified

Section 15: Regulatory Information

Safety, health and environmental regulations/legislation specific for the substance or mixture

Other U.S. Federal Regulations

- SARA Ext. Haz. Subst.: This product does not contain greater than 1.0% of any chemical substance on the SARA Extremely Hazardous Substances list.
- SARA Section 313: This product does not contain greater than 1.0% (> 0.1% for carcinogenic substance) of any chemical substances listed under SARA Section 313.
