- Skin**
- IF ON SKIN: Wash skin with soap and water. Remove contaminated clothing and wash before reuse. If skin irritation occurs: Get medical advice/attention.
- Eye**
- IF IN EYES: Rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
- Ingestion**
- Do NOT induce vomiting. Seek medical attention.

### Most important symptoms and effects

- Acute**
- Direct contact with product concentrate may cause eye irritation
- Delayed**
- Prolonged/repeated exposure may cause mild skin irritation in susceptible individuals.

### Indication of any immediate medical attention and special treatment needed

- Note to Physician**
- All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

## Section 5: Fire-Fighting Measures

### Extinguishing media

- Suitable Extinguishing Media**
- Water spray, foam, carbon dioxide, dry chemical.

### Products

- Special Protective Equipment and Precautions for Firefighters**
- Structural firefighters' protective clothing will only provide limited protection. Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection. Wear positive pressure self-contained breathing apparatus (SCBA). Water spray may be used to cool containers exposed to fire.

## Section 6: Accidental Release Measures

### Personal precautions, protective equipment and emergency procedures

- Personal Precautions**
- Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not touch or walk through spilled material.
- Environmental precautions**
- Avoid run off to waterways and sewers.

### Methods and material for containment and cleaning up

- Containment/Clean-up Measures**
- Recover free liquid for recycle or disposal. Add absorbent to spill area. LARGE SPILLS: Dike far ahead of liquid spill for later disposal.

- Store in a dry, well ventilated place. Keep container tightly closed when not in use.
  - Keep away from open flame.

### Incompatible Materials

### General Industrial Hygiene

### Considerations

- Strong oxidizing agents.
- Handle in accordance with good industrial hygiene and safety practice. Wash thoroughly with soap and water after handling and before eating or drinking. Safety shower and eye wash should be available close to work station.

### Environmental Exposure

### Controls

- Follow best practice for site management and disposal of waste.
- Avoid release to the environment.

## Section 8: Exposure Controls/Personal Protection

### Exposure Controls

#### PEL/TLV

Ingredient	OSHA (PEL)	ACGIH (TLV)	Other

### Engineering

#### Measures/Controls

- Use adequate mechanical (general) ventilation or local exhaust as needed to control concentration of airborne contaminants below applicable exposure limit values.

### Personal Protective Equipment

#### Pictograms

#### Respiratory

- Not necessary under conditions of normal use. In case of insufficient ventilation, wear suitable respiratory equipment if exposure limits are exceeded.

#### Eye/Face

- Wear safety goggles.

#### Hands

- Wear protective gloves- neoprene, butyl or nitrile rubber with cuffs.

#### Skin/Body

- Where extensive dermal exposure may be expected, either a chemical suit or chemical apron will be needed.
