

3R-651.7-XS is a reference element for the Macro tooling system.

The reference element is not self-carrying and requires a pallet for extra support.

Minimum size of pallet for support:
sq. 54 x 17.5 mm

- X / Y / Z - references are hardened
- Non rust resistant
- Coating: none
- Permissible torque: 135 Nm
- Weight: 0.2 kg
- Requires drawbar: 3R-605.1 or similar

Note! For the best repetition accuracy, flatness of mounting surface should be within 0.005 mm.
